

DOC 059 F/A

ATTESTATION / RADIOACTIVITE JAPON
STATEMENT JAPAN RADIOACTIVITY

To : LSK

Concerned product : Bread improvers, mixes and premixes for bread and pastry

Further to the issue at nuclear central of Fukushima damaged by earth quake and tsunami which happened in Japan on 11th march of 2011, we, Lesaffre Austria AG, certify that:

- We do not use raw materials coming from Japan for the production of yeasts

- We have listed the raw materials we use coming from countries nearby Japan. To our knowledge those countries are for the moment not concerned by a possible impact of the radioactive cloud from Japan. We follow on a daily basis the evolution of the situation in those countries and will adapt our plans for monitoring and control according to developments of data transmitted by the authorities. We also work in close collaboration with concerned suppliers.

- Please note that Lesaffre group makes regular analyses of contaminants control on its finished products and raw materials, in accredited external laboratories. Such analysis of radioactivity has been followed for many years.
